

# Crane Hand Signal Poster

Full color poster, 16" x 20", printed on heavyweight stock (.012")

OSHA requires (29 CFR 1926.550(a)(4)) that the hand signals used by crane operators and signalman must be posted at the job site. These superbly illustrated posters illustrate those crane hand signals for both mobile cranes and overhead cranes, while fulfilling the OSHA requirements too. They are also great for hanging on the wall in the break areas, tool trailers, or your training rooms.

**Item #LPHS1620 - \$8.95 each**
